## DECORATIVE SOLAR

Why choose between the decorative aesthetic you want and the solar versatility you need?

StressCrete Group decorative concrete poles and LED luminaires are engineered to support the requirements of most solar systems, allowing you to get both the aesthetic look you want while using whichever solar system or traditional grid electrification that you need for your project.

## JUST ADD SUN!

- **Decorative Pre-Stressed Spun Concrete Poles**  
Engineered poles able to support any specified equipment loads. Available in a range of decorative styles, colors, and finishes.
- **Post Top & Pendant LED Luminaires**  
All luminaires, from traditional to contemporary styles, can be provided solar ready. Specifics to be determined by the solar system utilized.
- **Decorative Arms**  
Complete the look with one of our decorative arms.
